

E.ON Inhouse Consulting (ECON) is the internal management consultancy of the E.ON Group and the preferred partner of E.ON's top management. With more than 80 consultants located in Essen, ECON combines state-of-the art consulting methodologies, comprehensive functional and industry expertise, deep E.ON insights and experience with a practical approach to building capabilities and delivering real impact. Working with ECON offers you: a challenging learning environment in consulting, excellent career prospects as well as a great team experience.

We are looking for **Senior Project Consultants (m/f)**

Responsibilities

You will lead work streams as part of ECON projects including:

- Applying a broad range of creative problem-solving skills
- Combining technical consulting and analytical excellence
- Constructing the analytical frameworks that result in strategic and operational recommendations
- Synthesizing conclusions into recommendations
- Working directly for and with our senior client leaders to implement change

Guiding less experienced ECON colleagues and taking on initial, internal leadership responsibilities (e.g. participating in recruiting and competence centres).

Qualifications

- Excellent university degree in economics, engineering or science with top grades in analytically-oriented subjects (Master's degree is a must)
- 2-3 years of work experience in top management consulting
- Experience in supporting strategic and operational energy/ utility-related projects
- Fluent in English, willingness to learn German
- International experience, ideally studies or internship abroad
- Highly advanced analytical and strong problem-solving capabilities
- Excellent communication skills as well as strong team orientation
- Willingness to travel to our national and international client sites
